## PROFESSIONAL EXPERIENCE

### Data Scientist - Project Digital House

05/2022 - 12/2022  
Buenos Aires, Argentina

- Trained, implemented and evaluated Machine Learning models using Scikit Learn for a bank credit rating risk system with Python.
- Used model assembly and boosting.
- Applied data cleaning and manipulation techniques (EDA and ETL).
- Made the model available with the Streamlit library.

### Assistant Manager of Health Insurance Benefits River Plate Adventist Sanitarium & Hospital

07/2018 - 11/2021  
Entre Ríos, Argentina

- Prepared reports and dashboards for the manager using the KPIs of the different health insurances in Power BI. Interpreting and identifying where we should focus on price negotiations.
- Automated real time data reporting by implementing SaaS BI. Reduced the delay times in patient attention in the department.
- Oversaw 25+ people from three separate departments and the different HR strategies within the Medical Benefits management, recruitment and selection, training, communication, and development.

### Data Analyst BI - Project Digital House

03/2021 - 07/2021  
Buenos Aires, Argentina

- Used analytical programs for the development of control charts and reports on automotive crime in the city of Buenos Aires with Power BI.
- Applied storytelling, dashboarding and data visualisation techniques with their corresponding KPIs.
- Extracted data with MySQL, information architecture concepts and Data Warehouse.
- Implemented different business analysis.

## ADDITIONAL EXPERIENCE

### Assistant Financial Manager (Volunteer) Maluti Adventist Hospital

11/2021 - 12/2022  
Mapoteng, Lesotho

### Dean of Student Residences (Volunteer) Tyrifjord Videregående Skole

07/2017 - 07/2018  
Røyse, Norway
